Martin Grimnes
Arcadia Alliance

Dear Martin,

Please share this letter as needed to express the support from the Maine Marine Trades Association for Arcadia Alliance's proposal for passenger ferry construction in Maine. This project could be of great importance on many levels and benefit our workers, technology sector, businesses, training resources, transportation, public safety, supply chain, carbon emissions reduction, and local economy. Our industry association would like to encourage the State of Maine and Maine DOT to give this proposal careful consideration.

Best wishes for a successful project,

Stacey Keefer
Executive Director
